HISTORY
REWOVEN
Replicas of fabrics for period interiors
TRADITION
TECHNOLOGY
THE FUTURE

NOT FROM THE SHELF...
FROM HISTORY

Sometimes all that remains is a scrap of fabric.
Sometimes an old photograph, an engraving or a description.
For us, that's where it all begins.

We recreate the pattern, colour and texture of the fabric.
We create a fabric that complements the history
and character of a particular interior.

A FABRIC LIKE NO OTHER
ONE STORY
ONE PLACE

A historical design, recreated with attention to every detail

historical source

design draft

finished fabric

IT LOOKS JUST LIKE IT USED TO

MEETS TODAY'S REQUIREMENTS

We combine the expertise of designers and textile specialists with state-of-the-art technology.

We recreate the pattern. We select the appropriate raw materials and produce a sample.

This means that, even before production begins, you can see what the finished fabric will look like..

YOU GAIN

- a design created specifically for your property
- greater control over the result
- durability tailored to the application
- the ability to meet
  fire safety requirements
- support from the initial idea
  to the finished fabric

source → project → test → finished fabric

WE ARE RESTORING HISTORICAL ART

Curtains, upholstery and wall fabrics are not just for decoration. They create an atmosphere and give an interior a unique character.

We create replicas for palaces, castles, museums, theatres, hotels and other historic buildings.

The Palace in Rogalin

Let’s talk about the fabric for your venue...
